	<u>Number of shares</u>
<b><u>Issued ordinary shares</u></b>	
Balance at 1 July and 30 September 2019	<u>793,927,260</u>

At 30 September 2019, the Company's issued share capital (excluding treasury shares) comprises 768,500,460 (30 June 2019: 767,725,460) ordinary shares. The total number of treasury shares held by the Company as at 30 September 2019 was 25,426,800 (30 September 2018: 26,201,800) which represents 3.3% (30 September 2018: 3.4%) of the total number of issued shares (excluding treasury shares).

There were 775,000 (30 September 2018: 1,091,000) treasury shares reissued pursuant to the employee share plans for the first quarter ended 30 September 2019.

2 **Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.**

The above figures have not been audited and reviewed by the Company's auditors.

3 **Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of matter).**

Not applicable.

4 **Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

Except as disclosed in Note 5 below, the Group has applied the same accounting policies and methods of computation as in the audited financial statements for the financial year ended 30 June 2019.

5 **If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

On 1 July 2019, the Group has adopted the following Singapore Financial Reporting Standards (International) ("SFRS(I)s"), and amendments and interpretations of SFRS(I)s that are relevant to the Group and the Company and effective for annual periods beginning on or after 1 July 2019 as follows:

- SFRS(I) 16 *Leases*
- SFRS(I) INT 23 *Uncertainty over Income Tax Treatments*
- Amendments to SFRS(I) 1-28 *Long-term Interests in Associates and Joint Ventures*
- Amendments to SFRS(I) 3 and 11 *Previously Held Interest in a Joint Operation*
- Amendments to SFRS(I) 1-12 *Income Tax Consequences of Payments on Financial Instruments classified as Equity*

The adoption of the above standards did not have any significant impact on the financial performance or position of the Group and the Company except for the following:

SFRS(I) 16 *Leases*

SFRS(I) 16 removes the distinction between operating and finance leases and results in the recognition of an asset (the right to use the leased item) and a financial liability to pay rentals in the statement of financial position for leases except those that are short term or have low value.

The Group applied SFRS(I) 16 on 1 July 2019 using the modified retrospective approach and has not restated comparatives for the financial year ended 30 June 2019, as permitted under the specific transition provisions in the standard. In addition, the Group applied the practical expedient to grandfather the definition of the leases on transition and accordingly SFRS(I) 16 will be applied to contracts which were previously identified as leases under SFRS(I) 1-17 *Leases* and SFRS(I) INT 4 *Determining whether an Arrangement contains a Lease*.

On adoption of SFRS(I) 16, the Group recognised lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of SFRS(I) 1-17 *Leases*. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 July 2019. Right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position as at 30 June 2019.

Right-of-use assets and lease liabilities of approximately \$32.3 million and \$32.3 million respectively have been recognised by the Group on 1 July 2019 in its statement of financial position while the impact to the consolidated income statement is not significant. There is also no significant impact on the financial statements from the Group's activities as a lessor except for some additional disclosures which will be required in the full year Annual Report.

8 **Review of performance of the group**

For the three months ended 30 September 2019 (“current quarter”), the Group recorded a total revenue of S\$79.3 million. This represents a 2% increase from the S\$77.9 million revenue recorded in the three months ended 30 September 2018 (“corresponding quarter”). This increase is largely due to the higher contribution from development properties. Revenue for the current quarter was mainly attributable to the additional units sold in Le Nouvel Ardmore in Singapore.

The Group recorded an operating profit of S\$7.6 million in the current quarter mainly due to the contribution from Le Nouvel Ardmore.

The Group’s share of profits of associated and joint venture companies increased by 13% to S\$10.5 million in the current quarter largely due to the higher contributions from Wing Tai Properties Limited in Hong Kong and Malaren Gardens in Shanghai.

In the current quarter, the Group’s net profit attributable to shareholders was S\$6.8 million as compared to the S\$2.2 million recorded in the corresponding quarter.

The Group’s net asset value per share as at 30 September 2019 was S\$4.20 as compared to S\$4.19 as at 30 June 2019. The Group’s net gearing ratio remained at 0.12 times as at 30 September 2019.

9 **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The current announced results are in line with the prospect statement previously disclosed to shareholders in the results announcement for the financial year ended 30 June 2019.

10 **Commentary of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The URA's flash estimate shows that the residential property price index increased by 0.9% in the third quarter of 2019, as compared to the 1.5% increase in the previous quarter. The total number of new residential units sold in the third quarter of 2019 was approximately 3,200 units, as compared to 3,012 units sold in the third quarter of 2018.

In September 2019, the Group acquired the freehold property known as 4 Wesley Court, Burwood East, Victoria, Australia. The property located within the Tally Ho Business Park, is currently leased out as a data centre.

The Group will continue to monitor the market and will launch its new residential project for sale in Singapore at the appropriate time.
